

annie

Poor Annie, no one wanted a middle aged dog, her fate was uncertain. Annie ended up in a wonderful home, playing dress up and getting lots of love!

blackjack

Tiny little Blackjack was found wandering alone in the desert. He was one of the smartest little puppies I've ever met. He found a loving home and is living the fantastic life he deserves!

A few APe Action dogs that have found their forever homes.

spanky piano
(blacky)

We saved him from death at a local shelter. When we got him he was a skinny little guy, full of worms and full of spunk. We are so thankful he found a family to call his own, and a new name!

seamus
(cash)

Seamus was abandoned at a local shelter with a broken leg. We were not sure if it would be able to be saved with surgery. After much work to raise the money needed, seamus was fixed and adopted by a super couple that have since added a brother to his life.

charlie

Charlie was saved from being killed at a local shelter. He spent many months in a wonderful foster home. Circumstances changed and Charlie had to be moved quickly. Lucky for him, his new foster family decided to adopt him and he's now living the good life!

jackjack

Jack was saved right before he was going to be killed in an LA shelter. He lucked out, his awesome foster home adopted him and he became the 3rd Jack in their family!

chrissy and jasmine

We found them running in the street. They were in horrible condition. Very neglected. After some TLC, they cleaned up nicely and were adopted out individually to two different families. Chrissy (shep mix) is a sweet older girl that found a wonderful home to spend the rest of her days. Jasmine gets to spend her senior years in a home full of look-a-likes (she's got 4 brothers and sisters that look just like her!)
