

## A few APe Action dogs that have found their forever homes.

### **kobe & kokomo**

They were both saved from a local shelter, one was being dragged in by it's owner. It was obvious the dog had something wrong with it's eyes. A few months later the other was in there as well. We raised the money and got them both the eye surgery they needed. They were adopted together into a family with two boys that each got a dog!

### **kuma**

Kuma was saved from a local shelter. She found the perfect home and is now living it up like she should be!

### **linus**

Linus was in bad condition at a local shelter, about to be put to sleep. We took him in, cleaned him up, and found him the perfect home. Hurray for LINUS!

### **momo**

Mo was dumped out in the desert. We took him in and found him a super home where he gets to be treated like the little king he is.

### **sally**

Sally was saved from being killed at a local shelter. She found a forever home she can now call her own, we loved SALLY!

### **sammy**

Sammy's family no longer wanted him, he was banished to the garage. He was adopted by a wonderful lady, and now goes camping with his new friends!
